Berkley Technology Underwriters
a Berkley Company

Technology Errors & Omissions + Cyber Solutions

Having technology errors and omissions + cyber solutions insurance for a tech company is a must-have in the modern world, and it's there for those days when things don't go as planned.

Technology Errors & Omissions (E&O) Liability

Like Berkley Technology Underwriters (BTU) and the companies we insure, our Phoenix Technology E&O product rises to meet and overcome challenges head-on. Flying above the competition, our Tech E&O product offers innovative, modern, and thoughtfully designed policies that provide coverage and confidence to leading-edge technology companies.

With a focus on flexibility, strength, and responsiveness, our custom-built coverages are designed to evolve as needed to address the ever-changing risks faced by technology companies.

Cyber Insurance

Cyber insurance can help protect businesses against losses from cyber exposures such as malware, ransomware, distributed denial-of-service attacks (DDoS), or any other methods used to access or compromise computer systems or networks — including assuming operational control and accessing sensitive data.
